## Energy Management

The Energy Management group is a leading advisor and solutions provider to companies looking to reduce energy consumption and costs. We are tasked both with delivering proven solutions and developing custom out of the box solutions for our clients. The team identifies energy conservation measures and then helps clients implement them. The team also works very closely with Ecova's analysis, carbon and sustainability teams and leads overall delivery of energy consulting services.

The Energy Management team is a fast paced and quickly growing group that is on pace to be the market leading energy management team. The team has an immediate need for a knowledgeable and motivated Energy Manager Associate located in Cincinnati, Spokane or Portland. In this role, you will report to the Senior Energy Manager and have the opportunity to immediately impact clients' energy footprints.

## Role Description

As an Energy Manager you will combine energy efficiency knowledge plus analytical and communication skills to assist clients in reaching their energy efficiency goals. To accomplish this, you will analyze client utility data to support contracted deliverables including development and tracking of performance metrics. You will identify and investigate energy and water anomalies and work with client to determine causes of high usage. You will prepare ad-hoc energy reports and financial analytics and interpret your results to the client.

In turn, you will support implementation of energy awareness programs including coordination of energy awareness newsletters and related publications. You will track changes in facilities' energy usage following the implementation of new awareness projects and energy efficiency programs to test and demonstrate their effectiveness.

## Role Competencies

As our ideal candidate you possess a bachelor's degree in addition to three years of direct experience in energy management, energy analysis or a related field. You have working knowledge of building systems including HVAC and lighting. You understand electric, gas and water rates, and have experience working with energy bills and energy billing. You consider yourself highly proficient in MS Word, MS Excel, and MS PowerPoint.

Your developed analytical and data management skills and your ability to communicate effectively through written and oral interchange are sources of pride and areas where you have been recognized by previous employers. You show strong initiative and are able to balance competing priorities while maintaining a high level of integrity and accuracy in your reporting.

## Ecova Information

Our salaries are competitive and commensurate with experience. We are a performance-based culture and have goal-based incentive programs and generous employee benefits. Our comprehensive benefit package includes medical, dental, vision insurance, life, AD&D, short- and long-term disability insurance. We also offer flexible spending accounts and 401(k) with a generous employer match.

Ecova is an equal opportunity and affirmative action employer. All qualified applicants will be considered without regard to age, race, color, national origin, ancestry, sex, sexual orientation or preference, religion, marital status, citizenship, veteran status, or physical or mental disability.
